Decowood is the embodiment of ethics and innovation.

We endeavour to constantly innovate

the paradigm of interior design. A space adorned

with Decowood transforms it into a pristine haven.

The sheer marvel and allure of Decowood makes any

space the perfect amalgamation of design and art,

whilst retaining the purity of nature.

Decowood presents the best of its best.
A hand-picked collection of exclusive veneers

SPECIALS

This catalogue represents Decowood's speciality in design.

Through this catalogue, we endeavour to showcase Decowood's innovation in crafting unique veneer designs which have been enhanced by experimenting with their texture, arranging them in special patterns and using chemical processes to influence treatment.

All this to capture and accentuate the aesthetic beauty and versatility of wood. Behold, The Specials.

decowood[™]
PREMIUM VENEERS

NATURAL | TEAK | ENGINEERED

TEXTURE

The beauty of wood lies not only in its look but also in its feel. With exquisite craftsmanship and assiduous attention to detail, Decowood brings to you a range of veneers innovated by experimenting with their texture. A variety of methods and technologies have been employed to enhance the texture of these veneers. Be it our exclusive sandblasting technology to create a rugged texture or enhancing the natural imperfections of wood by sawing – it is all about experiencing the touch of wood.

PATTERN

When great design repeats itself, the result is breathtaking. Decowood presents its exclusive range of veneers which are experimented with, by being arranged in various patterns. Experience the melange of design and symmetry work wonders with this one-of-a-kind collection of veneers.

Different methods of arrangement of these patterns yield unique designs which capture the wonder of woodcraft.

TREATMENT

Through state-of-the-art technology, Decowood adds a characteristic touch to this unique range of veneers enhanced by using different kinds of chemical processes to influence treatment. A variety of technologies innovated by Decowood such as Chemical Crackle Coating (CCC), Oxidation and Glitter treatment give each veneer its distinct look and feel which is unlike anything the imagination can fathom. Witness this wonder of Decowood's divine intervention.
