ABOUT US :

“First impression is the last impression.” Inspired by this principal rule of the interior design industry. Durian, a national leader in the furniture market, started its state-of-the-art facility for the manufacturing of decorative High Pressure Laminates. Decorative laminates are used to customize and beautify the surface of plywood and other base materials so as to suite the aesthetics and interiors of any given space.

We have also incorporated a 7-point Quality Control System to ensures that every single one of our laminates sheets goes through seven different quality control checkpoints during its production period. Our consistant and strategic quality control systems, all the way from the raw material input level to the finished goods level has accredited us with ISI 2046 : 1995 certification. Our modern and e-governed management protocols have accredited us with the prestigious ISO 9001 : 2008 certification. One ability to minimize harmful effects on the environment and to achieve continual improvent of our environmental performance has enabled us to get certified with ISO 14001 : 2004. Moreover, laminates produced in our facility also meets the British European Standard BS EN 438 and the American NEMALD 3 standards.

Our facility has a state-of-the-art chemical plant, which manufacture resinsed in the production of laminates. Having a modern plant allows our R&D team to experiment with innovative materials to produce quality resins that will stand the test of time. As a result, we are the only brand in the country to offer BFT (Borer, Fungus, Termite) Guard for all Our laminates.

Conventional Standard Cold Press Grade Laminate

VGS = Vertical Grade Standard

HGS - Horizontal Grade Standard

PRODUCT TECHNICAL DATA & SPECIFICATIONS

Type	: Conventional Laminates. (Other Grades available on request)
Thickness	: 0.92 mm
Size	: 7' X 3' - 2135mm X 915mm 7' X 3.25' - 2135mm X 990mm
Product Standard	: Comprising to <ul style="list-style-type: none"> British European Standard : BS EN 438 American NEMA LD 3, BIS (Bureau of Indian Standard) IS : 2046 BIS (Bureau of Indian Standard) IS : 2036 Grade P1 Phenolic/Electronic Insulation. ISO 4586.

PRODUCT CARE AND MAINTENANCE

For cleaning the surface of the laminates, use dry cloth to wipe the stains. If needed can use ordinary liquid detergent (non-acidic) or ammoniated liquid. After taking a trial on small portion Stain remover or Industrial organic solvents can be used to remove stubborn stains in case if there is no problem. One should not use, wire or hard-plastic brushes, and abrasives to clean the surface.

ESTHETICS / COLOUR / SHADE may vary from lot to lot. Inspect properly before cutting, alternating or pasting the laminates. Company is not liable for Colour / Shade variations.

Since, conventional laminates are made for interior decorations, should not be used for external use where there are chances for direct exposure to sunlight or any other sort of direct heat.

It is always recommended to keep the substrate horizontal while pasting the laminates. Immediate removal of pressure and vertical application should not be practiced.

Samples pasted in the folder represents the finish & design and not the actual thickness

Owing to printing limitations, the actual colour of door may vary.

PRODUCT WARRANTY

Company provides warranty that the product is free from any manufacturing defects and is suitable to use for normal and usual purpose. In case of any visual defects, the product should not be used, cut, or altered in any manner. Company liability will be limited to the extent the cost of product only.

The colour / shade may vary from lot to lot. Do inspect properly before using the product. Company will not entertain any claim if the product is cut or altered in any manner for any visual or appearance, shade change / difference.
